

# THE ENTERTAINMENT INDUSTRY'S *Most Powerful and Influential Latinos*

The Imagen Foundation is proud to present the 1st Annual list of the most powerful and influential Latinos in the entertainment industry. A group of respected Latino entertainment industry professionals and The Imagen Foundation compiled this list. Nominated individuals were invited to submit credentials for consideration and the list was developed from this process.

Tonight, we are proud to share with the industry and our community the accomplishments of these talented individuals who have earned the respect and admiration of

colleagues, competitors and others in the executive and creative ranks in film and television; among the talent agents; and the talent who have gained success and respect and have used their success to give back to the community.

To you on the list, and many more who will earn their rightful place in the future, thank you for making us proud and serving as role models to others by providing hope and aspirations in realizing one's dream.

Congratulations.
